## Two years Sentence for Former Kepri Governor

Ismeth Abdullah, former Kepri Governor

**THE CORRUPTION** Court has sentenced former Riau Islands governor Ismeth Abdullah to two years in prison for graft committed when he was Batam Authority chief, the Jakarta Post Reports.

The court also ordered Ismeth to pay a fine of Rp 100m(US\$11,200) or serve an additional three months in prison. Prosecutors had requested that Ismeth be sentenced to a four-year prison term and a fine of Rp 200 million.

Ismeth's abuse was estimated to have cost the state Rp 5.4 billion and related to the procurement of fire trucks. Lead judge Tjokorda Rae Suamba said

that Ismeth was guilty because he directly authorized PT Satal Nusantara to procure the trucks, which created an "unhealthy competition" by allowing the company to set the prices on its own.

Corruption Watch activist Febridiansyah said Ismeth might be released before he served his two year sentence because the government could grant him a sentence reduction on Independence Day or religious holidays after he serves a third of his sentence.

Muhammad Sani and Soeryo Respartiono are the new Governor and Vice Governor of Riau Islands for the term 2010 to 2015.

How To Perform The Haka  
(suggested: watch a videotape of the All-Blacks doing it.)

AN ENGLISHMAN wanted to become an Irishman, so he visited a doctor to find out how to go about this. "Well" said the doctor, "this is a very delicate operation and there is a lot that can go wrong. I will have to remove half your brain".

"That's OK" said the Englishman. "I've always wanted to be Irish and I'm prepared to take the risk".

The operation went ahead but the Englishman woke to find a look of horror on the face of the doctor.

"I'm so terribly sorry!!" the doctor said. "Instead of removing half the brain, I've taken the whole brain out".

The patient replied, "No worries, mate!!"

A RUGBY REFEREE died and went to heaven. Stopped by St Peter at the gates he was told that only brave people who had performed heroic deeds and had the courage of their convictions could enter. If the ref could describe a situation in his life where he had shown these characteristics, he would be allowed in.

"Well," said the ref, "I was reffing a game between Northern Transvaal and Natal at Loftus Versveld. Northerns were 2 points ahead, 1 minute to go. The Natal wing made a break, passed inside to his lock. The lock was driven on by his forwards, passed out to the flanker who ducked blind and went over in the corner. However, the flanker dropped the ball before he could ground it, and as Natal were clearly the better side all game, I ruled that he had dropped the ball down, not forward, and awarded the try."

"OK, that was fairly brave of you, but I will have to check it in the book," says Peter, and disappears to look it up. When he comes back he says, "Sorry, there is no record of this. Can you help me to trace it? When did all this happen?"

The ref looked at his watch and replied "45 seconds ago."
